

MANAGEMENT IS FOR YOU!

ABOUT UCONN'S MANAGEMENT DEGREE:

At the core of the Management major is coursework with an emphasis on leadership, entrepreneurial thinking, and strategic vision, three of the most prized assets of any successful business leader. Management majors are prepared to understand the "big picture" rather than focus on highly specialized, often rapidly changing, areas of study. This requires an ability to think and act on one's own with a confidence that only comes from an ability to see and appreciate what most highly focused specialists cannot.
